

## CLP – an introduction to the new Regulations

CIA offices, London, or a location to suit you

### Who should attend?

Anyone responsible for classification and labelling, as well as those accountable for wider product stewardship issues, should attend.

You'll get the most out of the course if you have some knowledge of the current classification and labelling system. Don't worry if you don't, we can always adapt the programme to meet your specific requirements.

### Why attend?

On 20 January 2009 the new EU Regulation on Classification, Labelling and Packaging of substances and mixtures (CLP) came into force – do you know what this means for your business?

### Come to this training course to find out!

Tackling the business and technical implications of the United Nations' Globally Harmonised System (GHS) and the EU's Regulation on CLP will be high on the list of priorities for most people already dealing with REACH. And for anyone currently putting substances on the EU market, even in very small quantities, new obligations apply from **30 November 2010**, so there is no time to waste.

This one-day course is designed to help you understand:

- ✓ the impact of this new regulation on your business,
- ✓ what you have to do to comply,
- ✓ how to make a start on your compliance plan,
- ✓ the practicalities of notification.

### Next Steps

To find out more about REACHReady's bespoke training, and to discuss your specific requirements, please call us on **0207 901 1443** or e-mail [events@reachready.co.uk](mailto:events@reachready.co.uk)
