

SIEF Experience Day

CIA offices, London, or a location to suit you

Who should attend?

Anybody who expects to be, or who already is, participating directly in a SIEF

Full of **practical exercises** this programme lends itself well to in-house training for companies who have a team of experts representing them in many different SIEFs and who want to provide their representatives with some support.

This day is also an ideal follow up for those who have attended our workshops on the technical aspects of SIEFs “Managing REACH – successful SIEFs and Consortia” and who now want some practical experience.

Why attend?

The talking is over – the real work has begun!

So you’ve pre-registered and now find yourself in a SIEF and you’re wondering what happens next. The SIEF discussions can be a daunting experience and if you want to equip yourself with the best knowledge to help you plan for the coming months, and even years, then this is the training day for you.

In this interactive day a REACHReady expert will take you through a series of role-play exercises which simulate the types of discussions that you will be having in the SIEF. The exercises are specifically designed to bring out the potential pitfalls that you may experience and our expert will be on hand to offer a way forward when you get stuck.

There will be plenty of time throughout the day to ask questions of our expert and to share your REACH experiences with fellow participants.

Next steps

To find out more about REACHReady’s bespoke REACH training, and to discuss your specific requirements, please call us on **0207 901 1443** or e-mail events@reachready.co.uk.
