

REACH IMPLEMENTATION WORKSHOP

Ramside Hall, Carrville, Durham DH1 1TD
21st March 2007, 10:00am to 3:30pm

The new **REACH (Registration, Evaluation and Authorisation of Chemicals)** regulation is due to come into force in June 2007, and it's important that all manufacturers, importers and downstream users of chemicals are prepared, and fully aware of the impact this new legislation will have on their business. This workshop, run by REACHReady in partnership with Nepic will help and advise chemical manufacturers and the supply chain how to start to prepare for REACH. As well as informative talks from recognised experts delegates will have access to the REACHReady staff and software tools.

Who Should Attend

This workshop will be of value to site managers and directors who need an awareness of the task facing their companies to comply with REACH as well as those with direct responsibility for implementing the regulations. This event is aimed at both chemical manufacturers and their customers in the supply chain.

- Site directors / Managers
- Regulatory Compliance Managers
- Health, Safety and Environment Managers
- Supply chain managers
- Importers

Draft Programme

The programme will focus on giving delegates practical advice.

- How the pre-registration process will work, how to register materials you make and use, including establishing consortia will be discussed by experts Steffen Erler and Tim Jessel of REACHReady.
- The practicalities of implementing REACH within SMEs will be covered by Peter Chandler of CPI
- The legal aspects of REACH will be covered by Dickinson Dees.
- Companies from the manufacturing and supply chain will give examples of what leading companies are already doing.

The programme will also provide the opportunity for networking with REACHReady approved service providers and others who can help companies with implementation.

The CIA / NEPIC Roadshow will follow the event at which CIA and NEPIC Chief Executives Stephen Elliott and Stan Higgins will talk and lead discussions about the key industry issues and the work the two organisations are doing. Workshop delegates are invited to stay for the Roadshow and following buffet supper.
