

Event programme

Nobody knows more about REACH.

Managing REACH: Get your 2013 SIEFs moving

9 February 2012 – The Heath, Runcorn, WA7 4QQ

Who should attend?

This workshop is essential for business and regulatory managers who pre-registered substances back in 2008, who have an obligation to register their substance(s) in June 2013 and who want to know how best to make progress in their SIEF.

This event is for **manufacturers** and **importers** of substances in the EU or those who have been appointed to act as an **only representative**.

Book before 6 January 2012 for an “early bird” discount.

Why attend?

Perhaps you or a colleague pre-registered substances in 2008 thinking that the 2013 deadline seemed like a long way off. And here we are, already well on our way towards that next registration deadline. Do you know what needs to be achieved in the remaining time? Is your business on the right track? Where do you start and what should you expect?

When you pre-registered you would have been put in an electronic SIEF (Substance Information Exchange Forum) and for many substances with a 2013 or 2018 deadline that is where the activity stopped. Nothing has happened since. So what can you do to get things moving?

Come to this workshop to find out!

The efficient operation of the SIEFs is crucial for every member to complete their own registration in time. In this workshop REACHReady will explain the best practices we've identified through our experience with SIEFs that worked well in the run up to the first deadline. We will tell you about the pitfalls that many encountered and show you ways to deal with them and “unstick” your SIEF.

There will be lots of discussion and plenty of time to question our experts and share experiences.

Outline Programme

9:30	Coffee & Registration
10:00	Being in a pre-SIEF
	Obligations of the SIEF
	Getting started – the facilitation role and how is it supposed to work
	Coffee
